MEET DR. BOBBY POURZIAEE

The Spa on Rodeo was created by board certified foot and ankle surgeon, Dr. Bobby Pourziaee with the intention of creating wellness from the ground up. As the founder of Rodeo Drive Podiatry, Dr. Pourziaee is a firm believer that healthy feet are the foundation of optimal well-being. Dr. Pourziaee has offered his own expertise in tandem with alternative therapies and treatments provided by his staff. The addition of these treatments and the undeniable benefits they offer was his inspiration behind The Spa. With The Spa on Rodeo, Dr. Pourziaee can now offer the same foundational approach to his patients as well as the public. The focus starts at the feet and continues on up, with treatments designed to heal and soothe your body and mind.

PEDICURE TREATMENTS

Signature Healing Foot Soaks

At The Spa on Rodeo, we believe wellness begins from the ground up. Herbal soaking is distinctly effective and beneficial to overall health. Soaks are prepared in our natural copper basins. Raw copper has been known to promote positive energy flow, increase circulation, and decrease inflammation. Copper is also naturally antimicrobial- making it a prime alternative to the traditional jetted foot spa.

Our healing foot soaks are infused with detoxifying chlorophyll and soothing coconut milk to soften the skin. Choose from an uplifting aromatherapy blend of eucalyptus and lemongrass to reignite the senses, or a calming combination of chamomile and lavender to relax and sooth the soul.

The Classic Pedicure

Immerse your feet in our copper bowl and absorb all the benefits, as your nail care professional tends to your nail and cuticles. Followed by a stimulating scrub, a light massage of the feet and lower legs, then finished with an expert polish application or buff.
