421 N. Rodeo Dr., Suite G13

**Our tester says** Founded by foot and ankle surgeon Bobby Pourziaee, the spa crafts pampering yet highly effective services. The 150-minute Rodeo Manicure and Pedicure, delivered in the soothing, bamboo-filled spa, starts with a recline in a roomy leather chair and a foot soak in a beveled copper basin. After feet and hands have rested in an herbal tea and coconut milk blend to soften, pros apply DMK's retexturizing enzyme mask (for professional use only), then offer a reflexology session, as well as a foot dip in paraffin wax to leave skin as supple as a newborn baby's cheeks. A precise polish application, with shiny shades from Butter London and OPI, cap off the perfectly indulgent service.

where an astrological reading leads you to your most fortuitous hues. (Only in L.A., kids.) Resident color expert and astrologer Rose Theodora walks you through your natal chart, then helps you pick resonating shades from the shop's lacquer wall, on which sit hundreds of shiny traditional and gel formulas from CND, OPI, Presto, and RGB, organized according to star signs. Theodora told our tester to go with purple, a shade that could be a "catalyst" for the career change she saw on her Libra chart. While our reporter chatted with Theodora, nail pro Noemi Diaz went to work. She filed our tester's nails into flattering squoval shapes before creating an ombré effect by brushing stripes of OPI's the Berry Thought of You and the deep-plum Skating on Thin Ice-Land (\$10 each; [ulta.com](http://ulta.com)) onto a makeup sponge, then lightly pressing the sponge onto nails. The glossy results went unchipped for 10 days.
