

## Dr. Bobby Pourziaee

Foot and Ankle Surgeon

### Treating the Whole Patient

Dr. Pourziaee, DPM, is the Louboutin of foot and ankle wellness. In his Rodeo Drive practice and spa, which resembles a retreat more than an impersonal doctor's office, he creates individual treatment plans using the latest surgical procedures and therapies including laser and Platelet Rich Plasma (PRP). "I have always felt that feet are the foundation of overall health and wellness with a delicate balance of art and science. My love of surgery in addition to my desire to give immediate relief to those in pain made specializing in the foot and ankle a perfect fit," says the Rosalind Franklin graduate. His adjacent business includes The Spa on Rodeo, geared towards treating clients holistically with innovative body treatments and skin therapies.
